### Setting Industry Standards

#### Exclusive RigidForm™

CertainTeed Siding was the first to be designed to perform under high wind conditions through proprietary RigidForm™ technology. The concept is based on a roiled-over nail hem design that creates a reinforcing spine.

#### CertiLock™

The exclusive CertiLock locking system features self-aligning multiple bens that snap together with an audible "click" to ensure a secure fit and more consistent installation.

#### Patented STUDfinder™

- ▶ Ensures accurate & secure installation
- ▶ Patented secure intra panel interlock system

STUDfinder is engineered to align nail slots precisely with construction standards, with indicator letters centered under each nail slot to make it easy to locate studs and help ensure accuracy.

With STUDfinder

Possible outcome  
without STUDfinder

#### Multiple choices in colors

CertainTeed offers an industry-leading spectrum of colors including unique, darker shades and semi-transparent stained blends for virtually unlimited design possibilities utilizing the PermaColor™ System.
