

MAX-3 TECHNOLOGY

The three-layer technology used in the production of Max-3 makes the panels combine incredible resistance to mechanical damage possible only with metal siding with the possibilities of the polymer material in terms of shape, colour and structure.

Limited linear expansion

Increased impact resistance

Resistance to weather conditions

See the impact resistance test provided by the Max-3 technology

**FRONTO
SLAT PANELS**

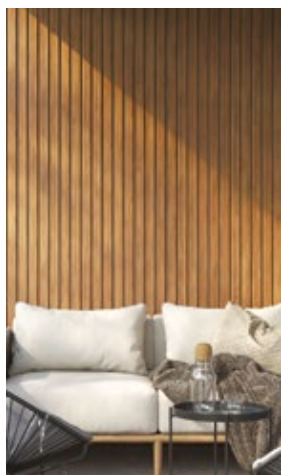

MODERN SOLUTION

Fronto is a new solution for façade and soffit. Depending on your needs, you can choose panels in a standard version for interior or the panels manufactured using the innovative Max-3 technology for outdoor. Panels are waterproof, lightweight, maintenance-free, as well as quick and easy to install. This guarantees many years of trouble-free use. Fronto is a versatile product that offers many design possibilities.

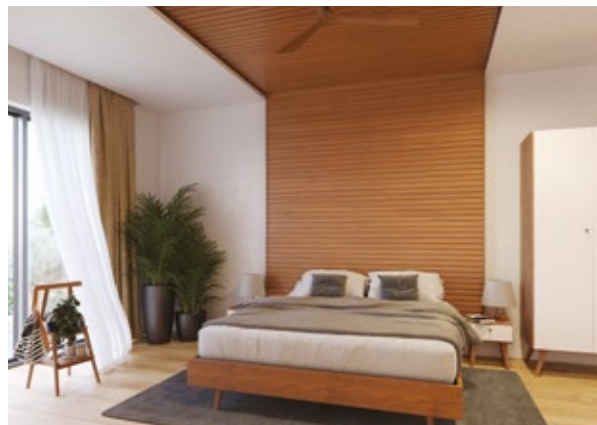

Inside and outside

Vertical versus horizontal

On the wall and on the ceiling

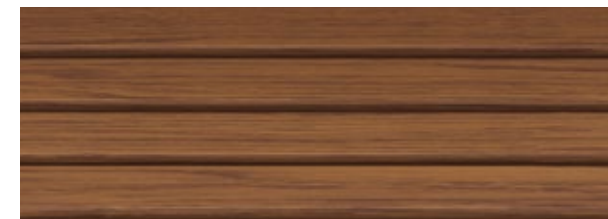

Harmony in the interior

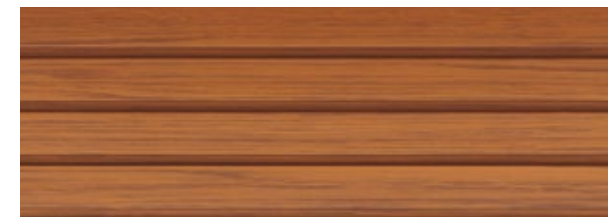

On the entire building or as a single touch

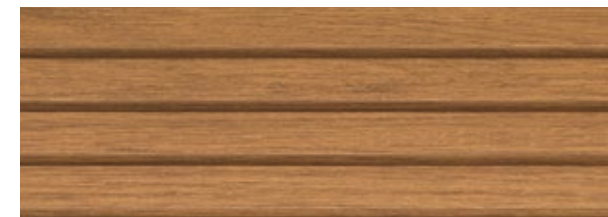

COLOUR RANGE

WALNUT

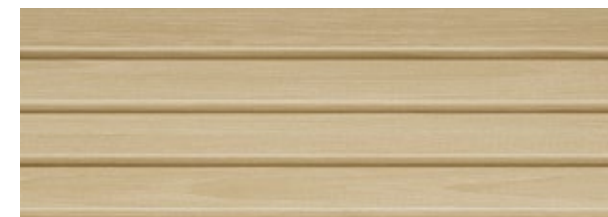

GOLDEN OAK

WINCHESTER OAK

HONEY OAK

OAK
